

MOVERS & PACKERS SOFTWARE

Run every move from one screen.

Enquiries, surveys, quotes, packing, trucks, billing and customer updates — managed together, so your team spends less time chasing paperwork and more time moving homes and offices.

Jobs to invoice

Track each move from first enquiry to final payment.

Every box counted

Barcode-tagged inventory so nothing goes missing.

Customers in the loop

Live move status and messaging with your crew.

WHY IT MATTERS

Moving is complicated. Running the business shouldn't be.

Most packers & movers still run on registers, Excel sheets, phone calls and WhatsApp groups. It works — until the business grows. Sysfo Movers & Packers Software brings every part of a move into one system your office, field staff and customers can all rely on.

Without a system

- ✗ Enquiries scattered across calls, WhatsApp and diaries — leads forgotten
- ✗ Quotes calculated by hand, inconsistent from one staff member to the next
- ✗ Handwritten item lists — disputes when something is missing or damaged
- ✗ Double-booked trucks and crews, last-minute scrambles
- ✗ Customers calling all day asking where their goods are
- ✗ No clear view of cost and profit on each job

With Sysfo Movers & Packers

- ✓ Every enquiry logged with reminders for follow-up and survey visits
- ✓ Branded quotes from customisable templates, sent in minutes
- ✓ Barcode-tagged inventory, checked at loading and delivery
- ✓ One schedule for jobs, crews and vehicles, synced to calendars
- ✓ Customers track progress and message your team themselves
- ✓ Expenses and revenue per job, with automated reports

At a glance

WHO IT'S FOR

Household shifting, office & corporate relocation, local and intercity moving companies — from a single office to several branches.

WHO USES IT

Owners and managers, sales & survey staff, operations and dispatch, accounts — plus your customers through their tracking view.

WHAT IT COVERS

Enquiries, surveys, quotes, jobs, inventory, packing materials, fleet & routes, customers, billing, expenses and reports.

KEY FEATURES

Six modules, one connected system

Each module shares the same customer and job record, so information entered once is available everywhere — from the first phone call to the final receipt.

Moving Job Management

- Create jobs from enquiries with move type, date, origin and destination
- Assign crews, supervisors and vehicles; avoid double-booking
- Stage-wise board: survey, quoted, scheduled, packing, in transit, delivered
- Reminders for packing deadlines and client appointments

Inventory Tracking

- Item list per job, organised room by room
- Barcode labels and scanning for quick identification
- Record condition at packing; verify at loading and delivery
- Track stock of cartons, bubble wrap, tape and other supplies

Customer Management

- One profile per customer: contacts, enquiries, jobs and payments
- Follow-up reminders so no enquiry goes cold
- Customer view to track progress and talk to movers
- Multiple language options for a diverse customer base

Billing & Invoicing

- Branded quotes and invoices from customisable templates
- Line items for packing, transport, labour, insurance and extras
- Record advances, part-payments and outstanding dues
- Automated emails for quotes, invoices and reminders

Route Optimization

- Plan routes for local and intercity moves
- Group pickups and drops to cut empty kilometres
- See which vehicle is where and when it's free
- Better trip planning for fuel and toll budgeting

Reporting & Analytics

- Revenue, collections and expenses by period or branch
- Cost analysis per job from recorded expenses
- Job completion time and customer satisfaction metrics
- Automated report generation, ready to share

From enquiry to a confirmed, scheduled job

Capture the lead, survey the goods, send a professional quote and turn it into a scheduled job — without re-typing anything.

1 · Capture every enquiry

Log calls, walk-ins and website leads in one place with source, move date and requirement. Follow-up reminders keep sales on track.

2 · Survey & volume

Schedule on-site or video surveys and record items and volume, so the quote reflects the real load.

3 · Professional quotes

Build itemised, branded quotes from templates and email them straight from the system. Track whether they've been viewed.

4 · Confirm & schedule

An accepted quote becomes a job with the same details — ready for crew, vehicle and material assignment.

Every item tagged. Every carton accounted for.

Lost or damaged goods are the biggest source of complaints in this business. Barcode-based inventory gives you a clear record from packing to delivery – and protects your company when questions come up.

Materials stock

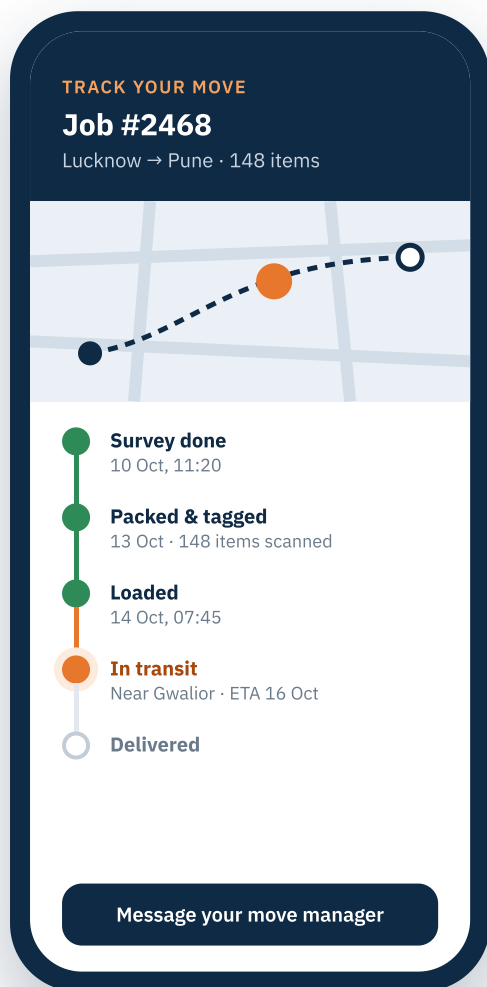

+ Purchase

Material	In stock	Status
5-ply cartons (large)	40	Reorder
3-ply cartons (medium)	215	OK
Bubble wrap rolls	18	OK
Stretch film	9	Reorder
Packing tape	120	OK

- ✓ **Room-wise item lists** created during survey or packing, with photos and notes on condition.
- ✓ **Barcode labels** printed per item; staff scan at loading and unloading to confirm nothing is left behind.
- ✓ **Fragile and high-value** items flagged so the crew knows what needs extra care.
- ✓ **Packing material stock** tracked by job, with low-stock alerts before you run short.
- ✓ **Material cost per job** feeds straight into job costing and profit reports.

Keep customers informed. Get paid on time.

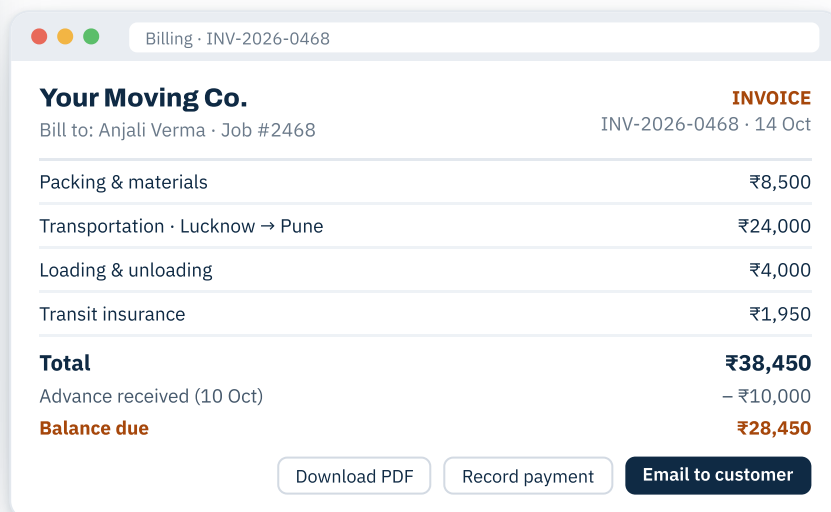

Customers can follow their move and message your team without calling the office. When the job is done, a branded invoice goes out in a click and every payment is recorded against the job.

Customer tracking view

What your customers get

- ✓ **Live status** of their move — survey, packing, loading, in transit, delivered.
- ✓ **Direct messaging** with your move manager, kept on record against the job.
- ✓ **Their item list** and quote, invoice and receipts in one place.
- ✓ **Their language** — multiple language options supported.
- ✓ **A feedback request** after delivery, feeding your satisfaction reports.

Branded documents

Your logo, terms and bank details on every quote and invoice.

Payments tracked

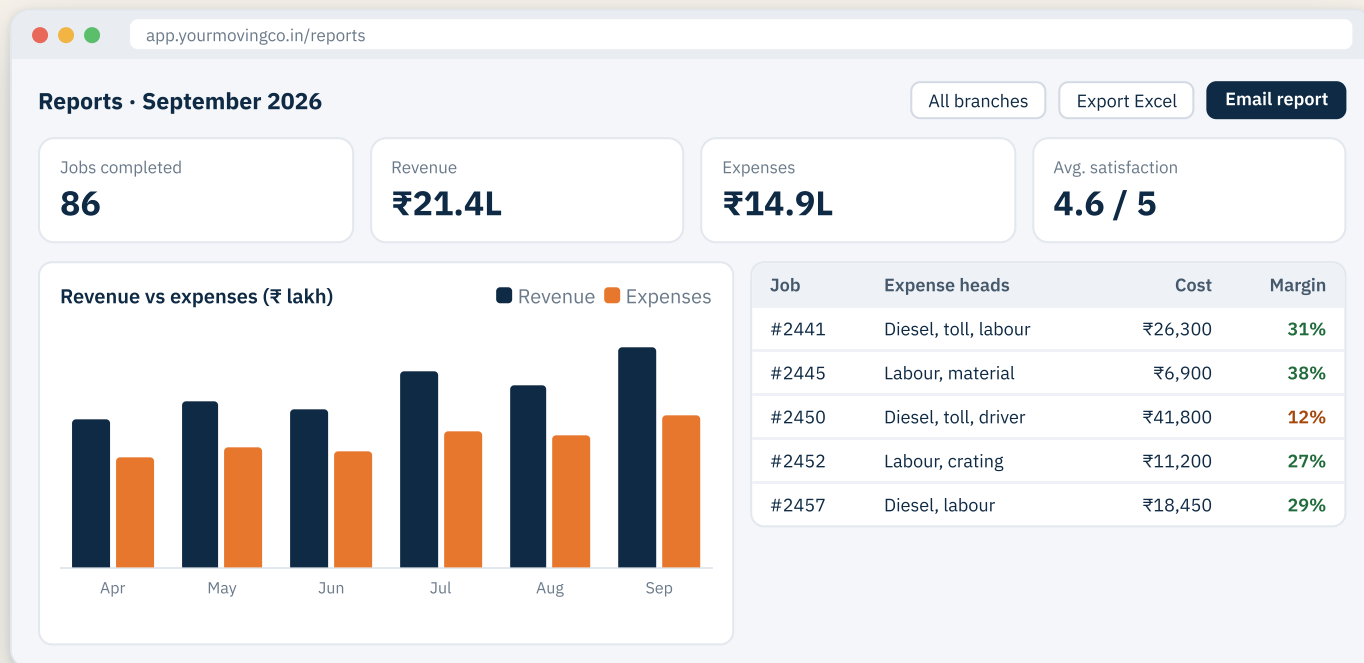

Advances, part-payments and balances recorded per job.

Automatic reminders

Emails for pending quotes and outstanding dues go out on time.

Know what every move really earns

Plan trips, record every expense against the job and see your numbers clearly — by day, branch, vehicle or customer.

Reports dashboard — revenue, expenses and margin per job.

Fleet & routes

- Vehicle availability calendar
- Route planning for multi-stop and intercity trips
- Driver and crew assignment per trip

Expenses

- Diesel, tolls, labour, material and misc. costs
- Recorded against each job for accurate costing
- Office and branch expenses tracked too

Reports

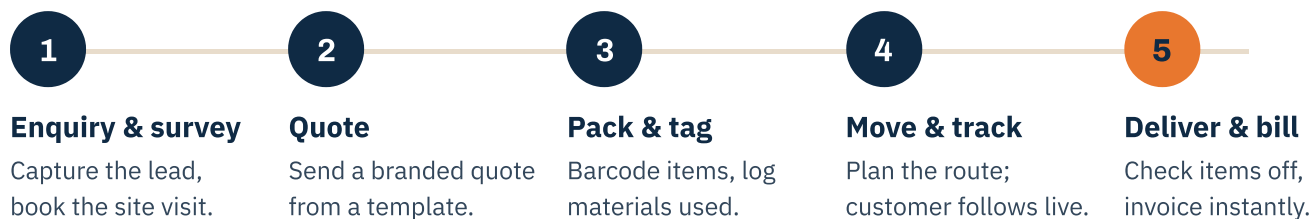

- Revenue, dues, expenses and margins
- Job completion times and satisfaction
- Scheduled reports sent by email

Also included

- ✓ Task reminders for deadlines and appointments
- ✓ Customisable quote and document templates
- ✓ Task automation and automated emails
- ✓ Calendar integration with popular apps
- ✓ Multiple language options
- ✓ Performance metrics for staff and jobs

HOW IT WORKS

From first call to final invoice

Why moving companies switch

Quote faster, win more jobs

Survey notes flow into a ready quote, with follow-up reminders so no lead goes cold.

Fewer damage & loss disputes

Every item is tagged with room and condition, then checked off at delivery.

Know your real profit

Expenses, materials and crew time sit against each job in your reports.

Fewer "where is my truck?" calls

Customers see progress themselves and message your team directly.

What you get with Sysfo

- ✓ Free demo with your own workflow
- ✓ Customisation to your services and rates
- ✓ Setup, branding and staff training
- ✓ Ongoing maintenance and support

See it running on your own jobs.

Book a free demo and we'll walk you through a move from enquiry to invoice.
