

ScrapApp

SCRAP COLLECTION & RESALE PLATFORM

Scrap, sorted. Run your **whole** scrap business from one platform.

Doorstep pickups, rider app, live tracking, wallets and payouts, inventory, sales, invoices and an online shop - connected, mobile-friendly and live from day one.

Customer App

WHY SCRAPAPP

Less chasing. More recycling.

ScrapApp connects every part of a scrap business - households who sell, riders who collect, the office that manages, and buyers who purchase - in one real-time system. Everyone sees only what they need.

5

connected apps:
Website, Customer,
Agent, Admin and Shop

85+

ready screens across
the platform

260+

secure API endpoints
behind them

Live

updates: new pickups,
rider location, status
changes

**Doorstep pickup**

Customers book an address and time slot in seconds. The right rider is assigned and notified at once.

**Transparent rates**

A live rate card per item and zone. Customers see the price before they book; riders see the same rates.

**Live tracking**

Riders stream their location. Customers watch the rider arrive; admins see the whole fleet on one map.

**Wallets & payouts**

Instant wallet credit after weighing, withdrawal requests, approvals and Razorpay payouts.

**Inventory to resale**

Every kilo collected lands in a stock ledger, ready to sell to vendors or list on the online shop.

**Right access for everyone**

Roles and permissions per screen, an audit log of changes, and secure sign-in for every user type.

A DAY WITH SCRAPAPP

One system, from the first booking to the final invoice.**8:00**

Customer books a pickup in about 30 seconds.

9:30

Admin assigns a rider; the rider is alerted live.

11:15

Rider weighs on arrival and records actual quantities.

11:40

Payment is credited to the customer's wallet.

14:00

Collected stock is listed on the Shop with live availability.

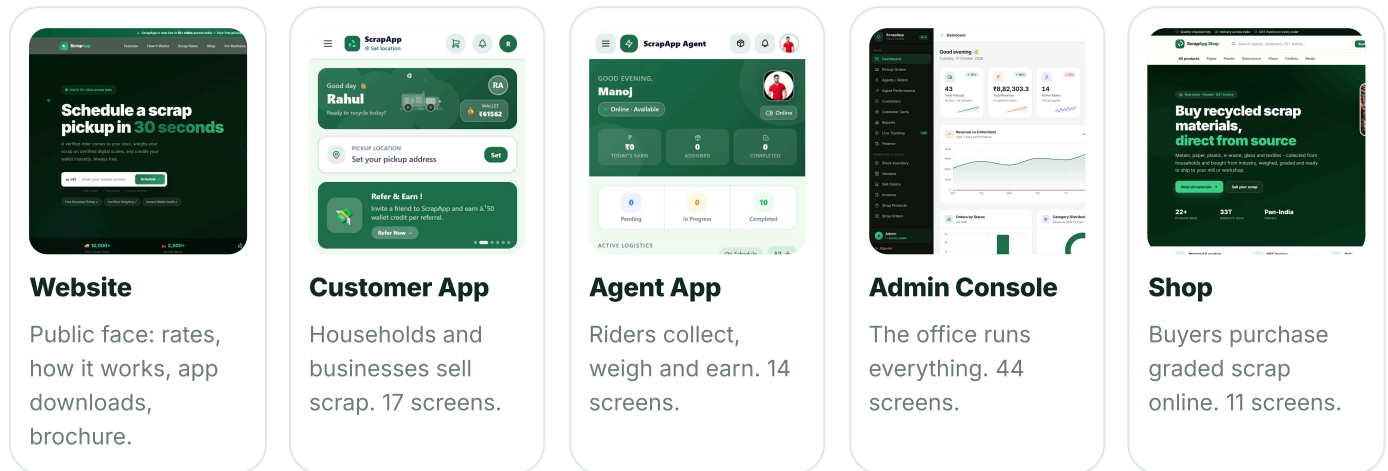

17:00

A buyer's order is confirmed, dispatched and invoiced.

THE PLATFORM AT A GLANCE

Five apps. One source of truth.

Each audience gets an app built for them. All of them share the same customers, rates, orders, stock and money - so nothing is typed twice.

ONE SECURE CORE

ScrapApp API · SQL Server database · real-time hub

260+ endpoints, 190+ stored procedures and a live notification hub keep every app in step.

Secure by design

- ◆ Token-based sign-in for every user type
- ◆ Roles and per-screen permissions
- ◆ Audit log of admin changes

Real-time

- ◆ New booking pops up for the office
- ◆ Rider assigned? Rider is alerted
- ◆ Rider moves, customer sees it

Integrations

- ◆ Razorpay payouts for withdrawals
- ◆ Email with editable templates
- ◆ Interactive maps for tracking

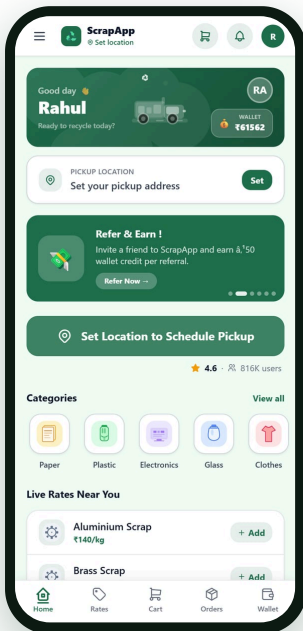

Install like a native app

The Customer and Agent apps install to the phone's home screen from the browser - no app-store wait. The Admin console, Shop and Website work on any laptop, tablet or phone.

CUSTOMER APP

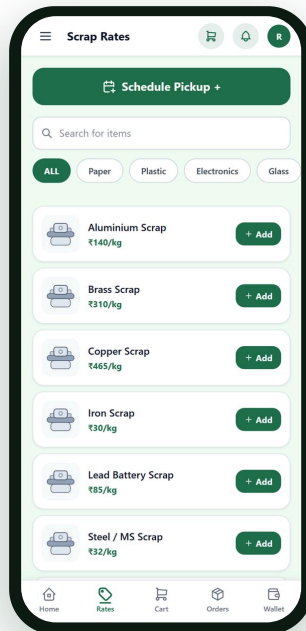

From doorstep to wallet in a few taps.

Households and small businesses book a pickup, follow the rider and get paid - all from their phone.

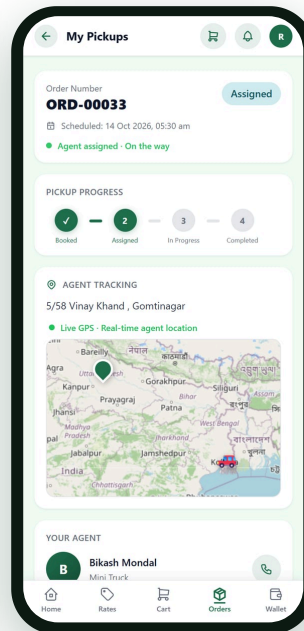

Home

Categories, live rates, offers

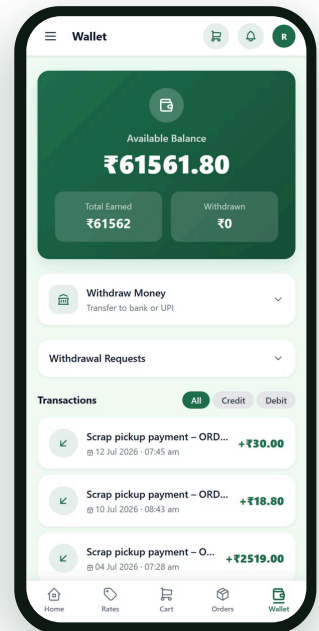

Rate card

Search and add items

Live tracking

Rider on the map

Wallet

Earnings and withdrawals

Book

- ◆ **Pick items** from the live rate card or cart
- ◆ **Address and slot** with a map pin
- ◆ Saved addresses for repeat pickups

Track

- ◆ Progress: booked, assigned, in progress, done
- ◆ **Live rider location** on the map
- ◆ Cancel or rate a pickup

Get paid

- ◆ **Instant wallet credit** after weighing
- ◆ Withdraw to bank or UPI
- ◆ Refer-and-earn code, PDF invoices

STAYS IN TOUCH

Notifications, support and dark mode.

Real-time alerts for every status change, a help centre with support tickets, and a light or dark theme to suit the user.

AGENT APP

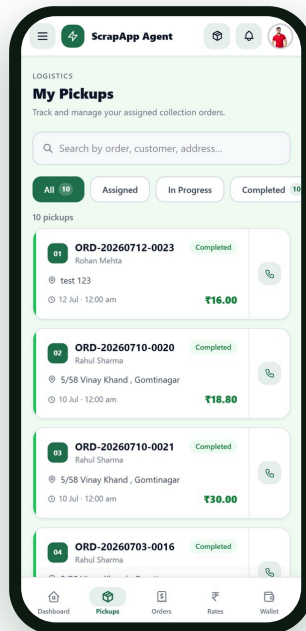

Everything a rider needs on the road.

Riders see their queue, navigate to the customer, weigh on arrival and watch their earnings grow - with no paperwork.

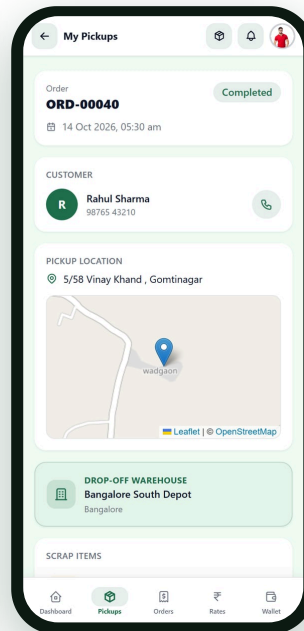

Dashboard

Today's queue and totals

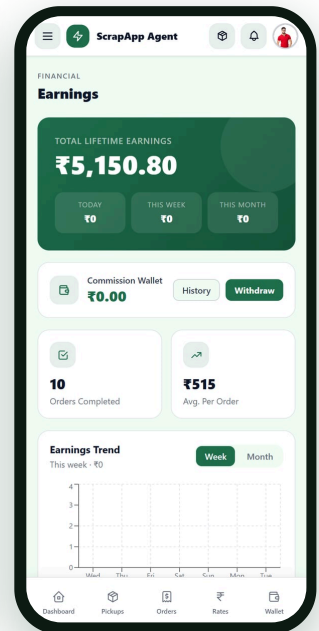

My pickups

Filter by status

Pickup detail

Map, items, drop-off

Earnings

Day, week and month

Work the queue

- ◆ Assigned pickups appear **instantly**
- ◆ Accept nearby pickups
- ◆ Call the customer in one tap
- ◆ Online / offline toggle

Weigh and complete

- ◆ Start, then complete the pickup
- ◆ **Actual quantities** recorded per item
- ◆ Drop-off warehouse shown
- ◆ Invoice preview for the customer

Get paid

- ◆ **Freelance:** commission wallet
- ◆ **Employee:** monthly salary wallet
- ◆ Withdraw to bank or UPI
- ◆ Live GPS shared with the office

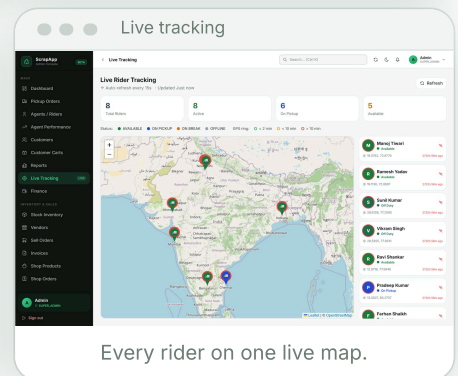

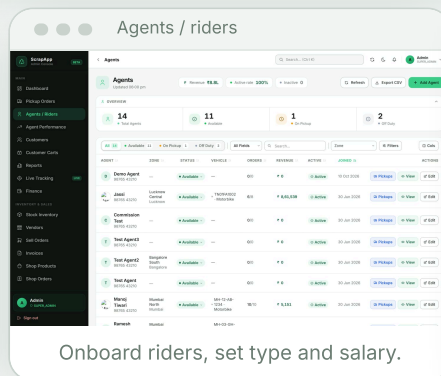

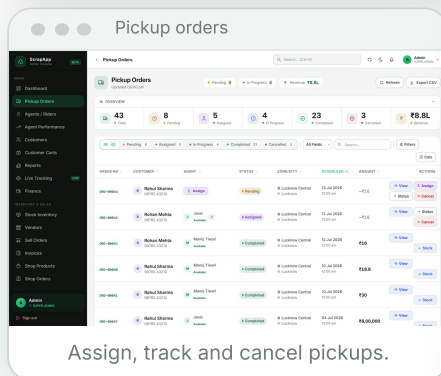

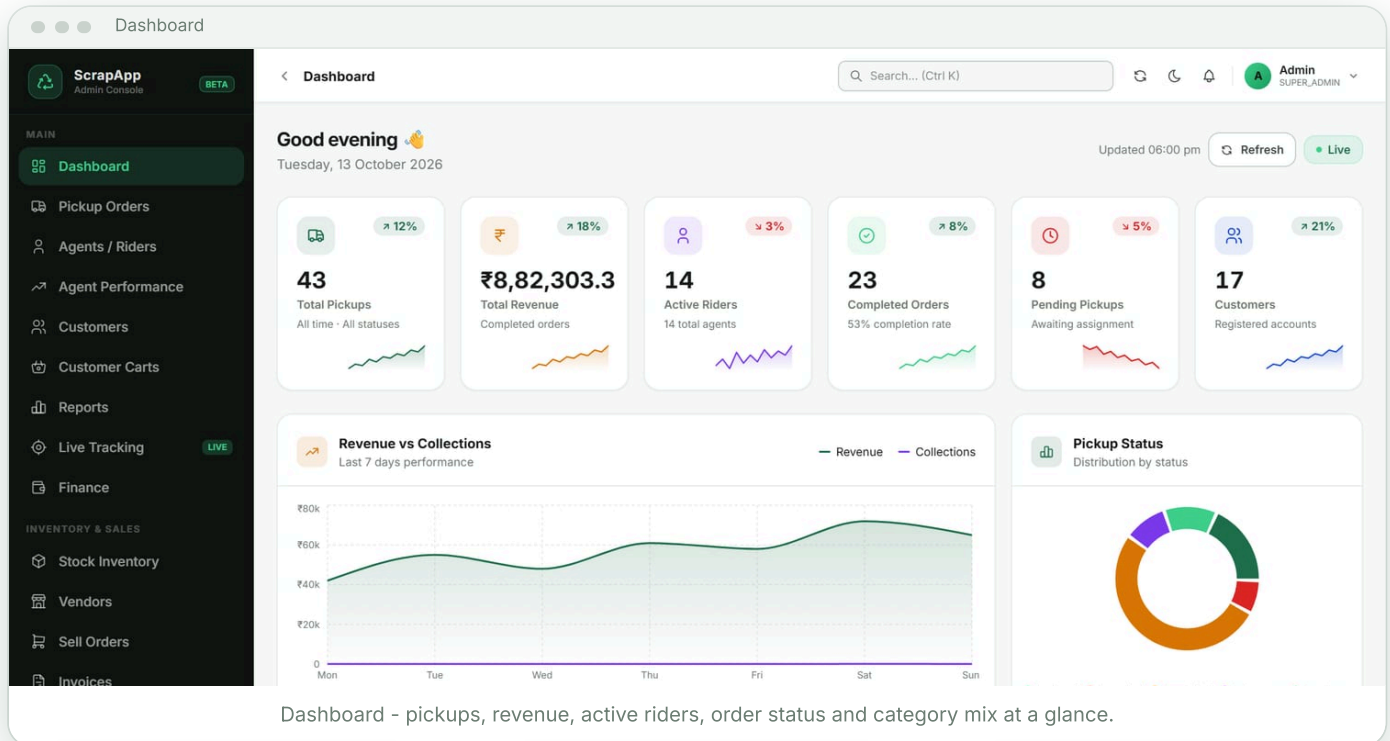

TWO KINDS OF RIDERS, ONE APP

Freelance riders earn commission on every completed pickup. **Employee** riders get a fixed monthly salary set by the admin - and still see every pickup and the weight they collected. The admin panel tracks performance for both.

ADMIN CONSOLE · OPERATIONS

Run the whole operation from one screen.

A live dashboard, pickup assignment, rider management and a fleet map for the office team.

Dispatch

- ◆ New bookings arrive in real time
- ◆ Assign or reassign a rider
- ◆ Status, cancellations, history

People

- ◆ Customers with wallets and carts
- ◆ Agent performance reports
- ◆ Block / unblock accounts

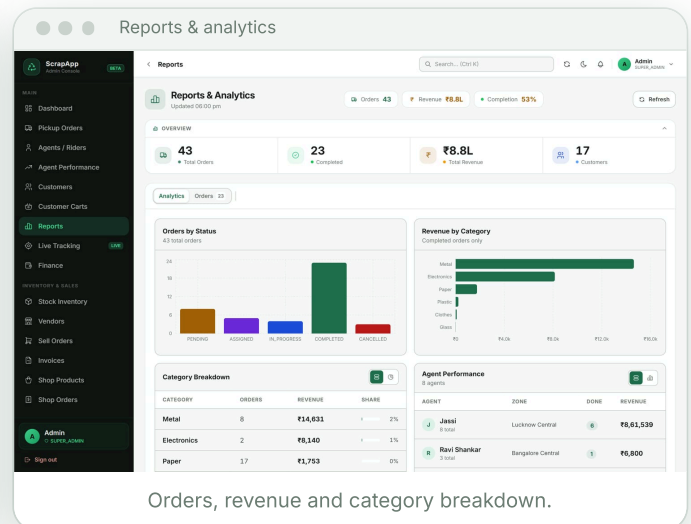

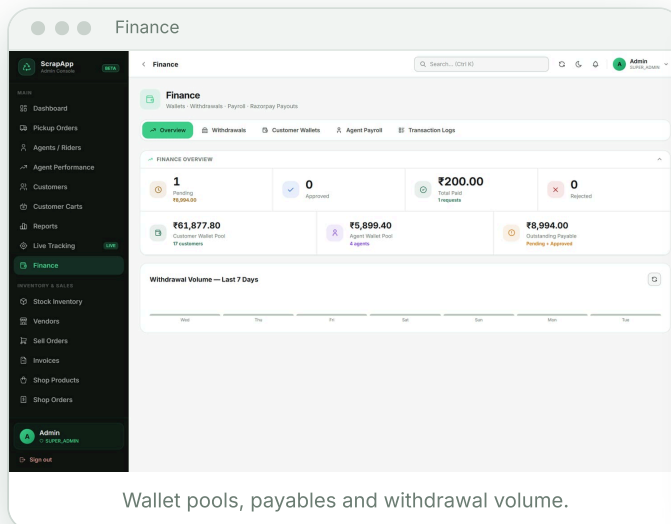

View as

- ◆ Open the app as any customer or rider to help or verify
- ◆ Read-only mode available

ADMIN CONSOLE · FINANCE & REPORTS

Know where every rupee stands.

Customer and rider wallets, withdrawal approvals, payouts and analytics - with a trail of who changed what.

Wallets

- ◆ Customer and agent wallet pools
- ◆ Credit or debit with a reason
- ◆ Full transaction history

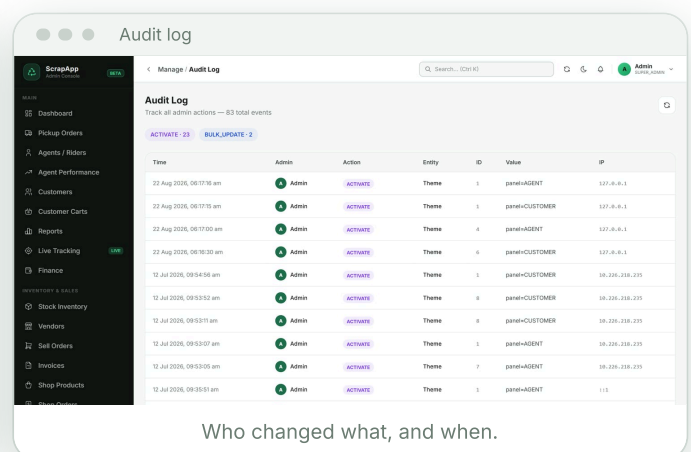

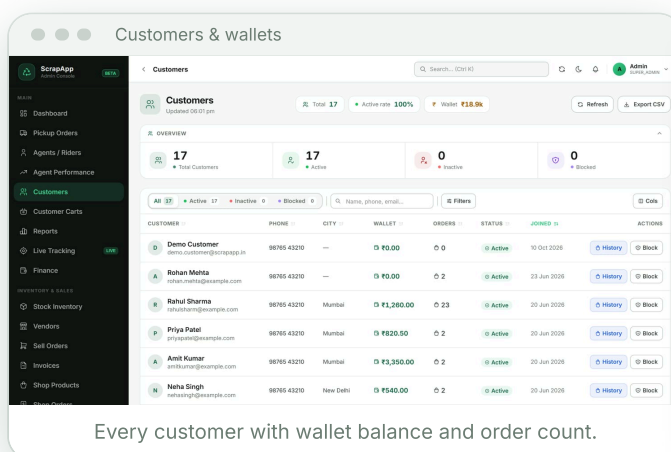

Withdrawals

- ◆ Pending, approved, paid, rejected
- ◆ **Approve, reject or mark paid**
- ◆ Pay via Razorpay payout

Reports

- ◆ Orders, revenue and customers
- ◆ Revenue by category
- ◆ Agent-wise performance

ACCOUNTABILITY

Every admin action is on record.

The audit log shows who changed what, on which record and when - so approvals, rate changes and settings are always traceable.

INVENTORY & SALES

From collected scrap to a paid invoice.

Every kilo that is weighed is recorded in a stock ledger. Sell it to vendors, dispatch it, and invoice it - with stock and money moving together.

Stock by category, balances, movements and manual adjustments.

Draft to completed, with payment status.

Customer and vendor invoices.

HOW STOCK MOVES

Pickup weighed
Stock in

Stock ledger
Live balance

Sell order
Vendor or shop

Dispatch
Stock deducted

Paid & invoiced
Books closed

Stock

- ◆ Ledger of every movement
- ◆ Low-stock flags, adjustments
- ◆ Warehouses and fleet

Sell orders

- ◆ Vendors with their own rates
- ◆ Confirm, dispatch, complete, cancel
- ◆ Cancel after dispatch returns stock

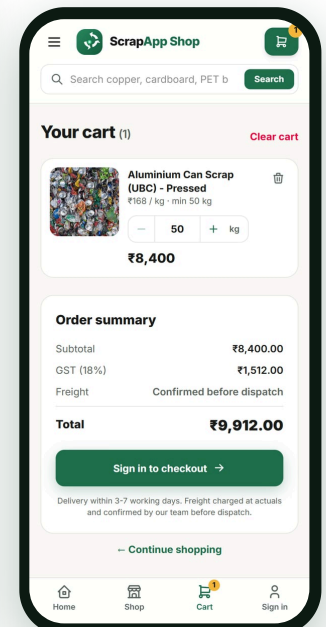

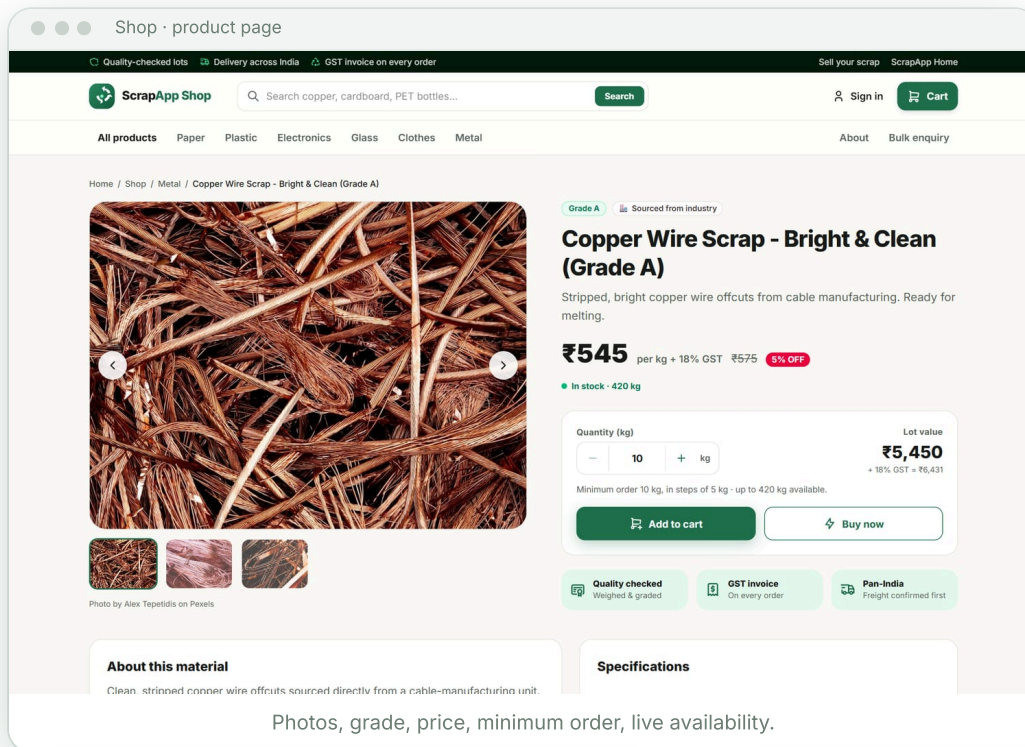

Invoices

- ◆ Created from a sell order
- ◆ Draft, sent, paid, overdue
- ◆ Preview and PDF

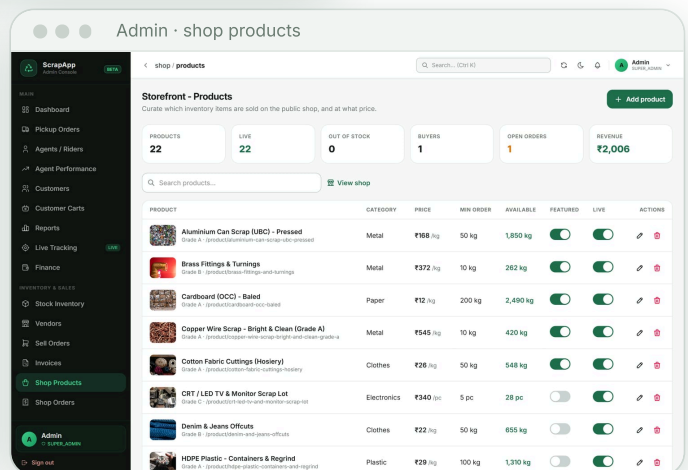

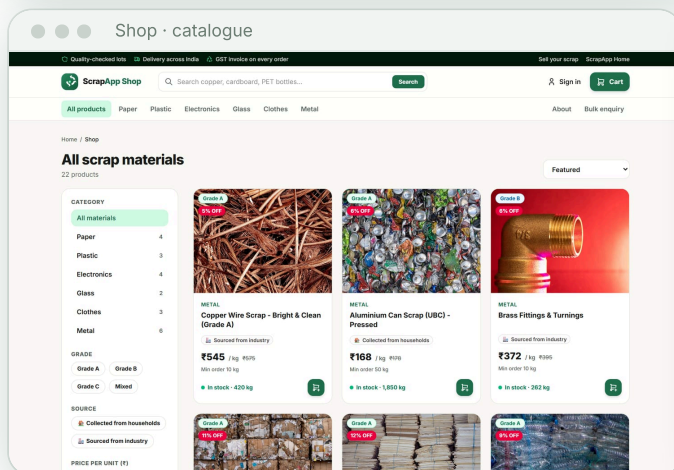

SCRAPAPP SHOP

Resell what you collect, online.

A mobile-friendly storefront where business buyers browse graded scrap with real photos, order in bulk and track delivery - fed directly from your inventory.

On a phone
Cart and checkout

For buyers

- ◆ Filters, search, grades, photos
- ◆ Cart, address book, order tracking
- ◆ Pay on delivery or bank / UPI transfer

For the office

- ◆ List any inventory item with price and MOQ
- ◆ Confirm, dispatch, collect payment
- ◆ Bulk enquiries and invoices

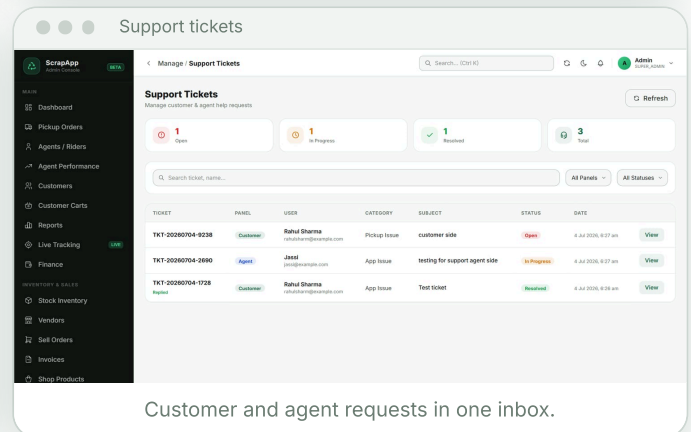

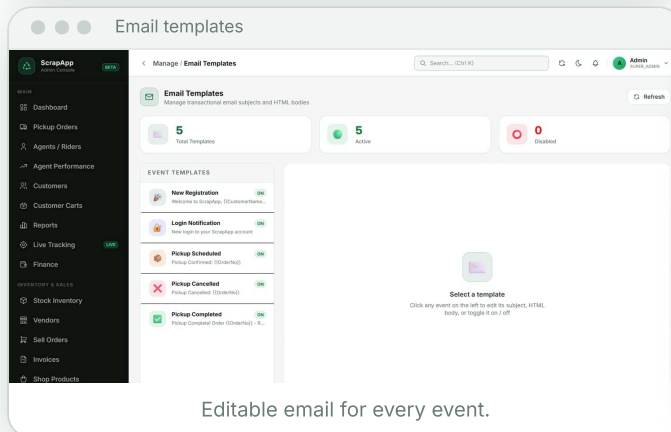

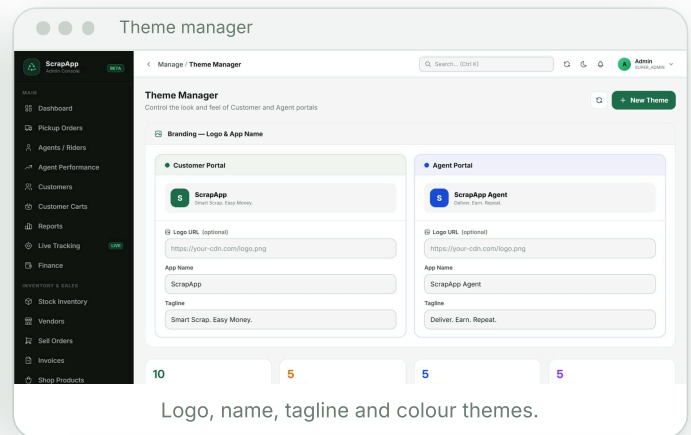

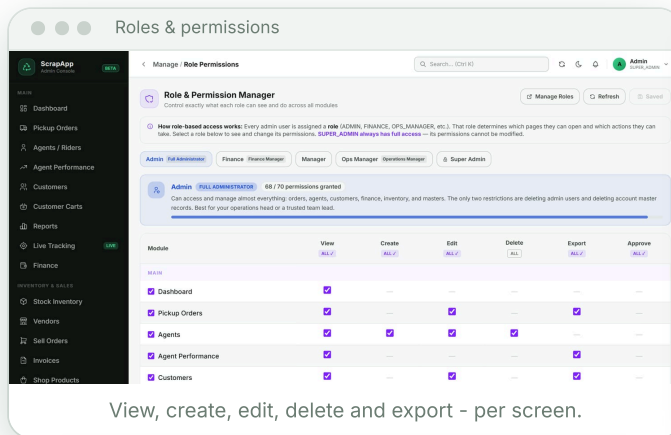

Always accurate

- ◆ Availability = stock minus open orders
- ◆ Quantity rules enforced
- ◆ Two buyers can never take the same kilo

CONTROL & CUSTOMISATION

Your rules, your brand, your data.

Set rates, zones and slots once. Decide who can see and change what. Make the apps look and sound like your business.

Per-screen access

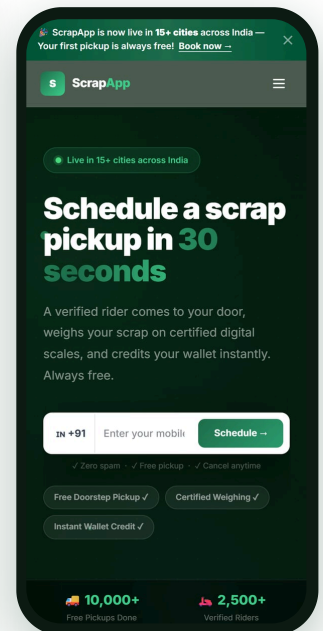

WEBSITE & APPS ON ANY DEVICE

A public face, and apps on every phone.

The website explains your service and sends visitors straight to the right app. Customers and riders install the apps in seconds.

Landing page with live rates, app links and the Shop.

Mobile website

Fully responsive

Install on Android

- ◆ Open the Customer or Agent link in Chrome
- ◆ Tap the menu, then **Add to Home screen**
- ◆ Tap **Add** - the icon appears like any app

Install on iPhone

- ◆ Open the link in Safari
- ◆ Tap **Share**, then **Add to Home Screen**
- ◆ Tap **Add** - opens full-screen

Any screen

Laptop, tablet or phone: layouts adapt, with a sidebar on large screens and bottom navigation on phones.

Fast and light

Installed apps open instantly and keep working through patchy connections.

Always current

Updates reach every user automatically - no app-store release cycle.

GET STARTED

See ScrapApp in action.

We set up your rates, zones and team, import your data and train your staff - so you can go live quickly and confidently.

1

Live demo

A walkthrough of the apps that matter most to your business.

2

Setup and data

Scrap categories and rates, service zones, riders and customers, set up for you.

3

Training and go-live

Hands-on training for the office and riders, with support after launch.
